

Website Project Proposal 2: Green Hope Community Centre

1. Organisation Overview

Green Hope Community Centre is a fictional non-profit supporting disadvantaged community members, providing food, education, and community activities.

2. Website Goals and Objectives

- Explain the organisation's mission.
- Promote programmes.
- Attract volunteers and sponsors.
- Provide event information.
- Ease communication

3. Current Website Analysis

Green Hope lacks a website, relying on posters and social media. Comparable organisations like ACFS and MES use websites effectively.

4. Proposed Features

- Homepage: Hero section, calls-to-action
- About Us: Mission, vision
- Programmes: Food, education, community
- Enquiry page: Volunteer, sponsor forms
- Contact: Location, map, social media
- Events section
- Image gallery

5. Design and User Experience

- Colour scheme: Green, white, light grey.
- Typography: Arial (headings, body)
- Responsive design
- Accessibility: WCAG AA guidelines

6. Technical Requirements

- HTML5, CSS3, JavaScript
- GitHub for version control

- Responsive design
- Embedded map (Contact page)
- Basic SEO: meta tags, sitemap
- Free hosting (Netlify)

7. Timeline and Milestones

- Weeks 1–2: Research, proposal, wireframe
- Weeks 3–4: Sitemap, HTML structure
- Weeks 5–6: CSS styling, responsive design
- Weeks 7–8: JavaScript, forms, and validation
- Week 9: SEO, accessibility check
- Week 10: Testing, deployment

8. Budget

Item	Cost (ZAR)
Website development	R0
Domain	R250
Maintenance	R300
Total	R550
